

IDB MARINE - Mojito 6.50

Nom du bateau : ERATOSTHENE

Location : Kernével

À vendre (occasion)

105 000 € inc. taxes

Resume

The Mojito 6.50 offers a unique sailing experience! Designed and built by the IDB MARINE shipyard in Concarneau, in the same mold as the famous Maxi 650 (Mini Transat), it combines innovation and good seamanship in a lightweight sailboat. Its rounded, futuristic bow shape immediately gives it a sympathetic appearance, inviting you to come aboard.

A sandwich design combining flax fiber and cork, natural materials for an eco-responsible construction more respectful of the environment.

Comfortable upwind or downwind, the pivot point at the keel makes this a responsive boat that responds almost instantaneously to the helm for amazing maneuverability! Its very wide hull gives excellent canvas stiffness and the ability to set off quickly on the plan. You'll be able to practice both regatta and coastal sailing with precision.

A real little racer that'll give you a real change of scenery right from the start !

In terms of interior layout, we've opted for the essentials, with a galley area equipped with stove, equipment and sink, and a navigation area with instruments. 2 berths in the saloon, with storage along the sides and under the bench seats. The double berth forward is very large, thanks to the shape of the hull. A chemical toilet completes the inventory.

Thanks to this original and ingenious unit, we offer you the chance to experience the thrill of gliding across the water.

Caracteristics

Cosntruction year : 2022
Type : Monohull
Length : 6,80m
Width : 3m
Draught : 1,85 - 0,8 m
Lest type : Lifting keel, agrounded (a manually-operated hydraulic jack raises the keel to get as close as possible to the beach.)
Yacht category : C
Security : Middle shore
Flag : Français
Hull color : Natural linen
Total berths : 4
Saloon berths : 2
Double-bed cabin : 1
Engine : 6cv Outboard Yamaha

Sail equipement

MS Full Batten
Genoa
Gennaker
Asymetric spinnaker
Tormentin
Lazy-bag
Lazy Jack
Furler
No furling genoa. A reef will allow you to reduce the headsail easily.
A long carbon bowsprit, sliding from a chute integrated into the deck, will allow you to carry a large asymmetric spinnaker or a gennaker.

Electronic

Navigation control panel
Depth sounder
Speedo
Sonar
Wind vane
Anemometer
GPS
Plotter
Autopilot
VHF
12V Circuit
AIS
Solar panels
The Plotter is outside in the cockpit

On deck

Tiller
Dinghy
Swim lader
Mooring line

Comfort below deck

Stove
Automatic life rest or life jackets
Minimalist equipment for reasons of weight and space. A chemical toilet is stored under the companionway. A small gas stove can be used to heat food or water. There is no water system on the boat, nor are there any freshwater tanks.
