Resume

The Dufour 37 was presented to the public for the first time at the end of 2022. It replaces the Dufour 360 and is part of the renewal of the Dufour range of sailing yachts. Like the rest of the current Dufour range, it has an infusion hull to control weight, make the boat more solid and protect the environment.

Thanks to an optimisation of space and a bow designed for greater forward volume, the Dufour 37 offers a truly spacious forward owner's cabin, with good headroom. It is available with 2 or 3 cabins and a choice of head compartments. Numerous options are offered by the shipyard, and can be added to by further improvements at our yard in Lorient.

The interior of this model is bathed in light thanks to the large central hull portholes and the roof windows.

The Dufour 37 benefits from the major innovations that have made the latest Dufours such a success: the layout of the delphinière, the large windows in the deck and hull, and the layout of the exterior spaces, which make it easy to move around the deck of the boat. You'll also enjoy a cockpit that's larger than on other yachts of this size.
