Available on lease or credit.

Resume

When the legendary Dufour Performance and Grand Large ranges meet to become one. The ultimate fusion of two worlds, resulting in a yacht with incomparable characteristics. The Dufour 530 brilliantly reflects the extent of Dufour Yachts' expertise. Developed on the architectural basis of the Performance range, its true racer hull has been designed to offer you extraordinary sensations. And because we don't compromise on cruising comfort, we've fused the basics of the Grand Large DNA, with a deck layout that's open, safe and over-equipped with features. All coupled with breathtaking innovations. Three completely separate manoeuvring areas, a cockpit with all-new functionalities, a revolutionary bimini concept, and a splendid look.

A spacious, elegant yacht, finished to the last detail. The ultimate in distinction.

Easy, Ocean or Performance? Available in three versions, the Dufour 530 is a real chameleon. From easy cruising manoeuvrability to ultimate performance, it has been designed to adapt to all your needs.

The Dufour 530 features a revolutionary cockpit with clear access steps to the gangways. They also separate the manoeuvring and seating areas for maximum passenger comfort. The sundeck is enhanced by the new rear bed and storage locker, exclusive to Dufour.

Finally, the interior of the Dufour design stands out clearly for the natural light provided by the numerous deck hatches. The contrasting colours and materials add a refined, elegant touch.

There are many possible configurations for the layout of the boat. The attached photos will show you the full range of possibilities.

This boat is now also available in a Smart electric version. Reversible main electric engine backed up by a back-up generator for emergency back-up.

Prices exclude options, transport and preparation.
